

# WHAT DISTINGUISHES OUR PACKAGING?

## PRACTICAL SOLUTIONS

Our packaging is ideally suited for storage as well as for transporting vegetables and fruit. Depending on the specificity of concrete products, as well as the expectations of our customers, the packaging can be closed by sealing or with a lid. Thanks to special openings, stored products stay fresh and look attractive for longer.

## AESTHETIC FINISH

We are perfectly aware of the importance of attractive packaging in the presentation of fresh products. That is why we offer the possibility of a variety of personalisation - starting from the selection of the colour of the packaging tailored to specific vegetables and fruits, ending with the selection of the insert.

## GUARANTEED QUALITY

We admire our clients for the attention they pay to each stage of production. In order to meet their expectations, we are also guided by the principle of complex control over the entire process - from the production of foil to the creation of a ready packaging. Thanks to this, we can guarantee its quality with full conviction.

# WHAT MAKES US TRUSTWORTHY?

## WE CARE FOR THE HIGHEST QUALITY

To create a perfect, defect-free product, we create prototypes and subject them to thorough laboratory tests. The standard of our work is to maintain the highest standards regarding production, health and safety and hygiene: ISO 9001: 2015, BRC IoP, HACCP, GHP and GMP.

## WE INVEST IN DEVELOPMENT

Our goal is to search for new solutions that improve the efficiency of our work and thus enhance the competitiveness of our clients. The production of innovative, environmentally safe packaging using 100% recycled materials, is one of the most important elements of our development strategy. They will be distinguished, among others, by high temperature resistance or reduced weight (foamed packaging).

## WE HAVE EVERYTHING UNDER CONTROL

Creating packaging requires diligence at every stage of production. That's why at Marcato we supervise the entire process: from design, through mould making, film production, thermoforming, and decoration - overprinting or labelling.

## WE CARE FOR THE ENVIRONMENT

We are aware of the responsibility we carry for the environment in which we live. Therefore, we strive to use all raw materials consumed during production in 100%. This is possible thanks to effective segregation, recycling and regranulation processes.

# THE BEST PRODUCT DESERVES THE BEST PACKAGING

## TRAY 180x180

SERIES: G 010, G 046  
HEIGHT: 43, 56, 70 mm.  
MATERIAL: PET

COMPLEMENTARY PRODUCT  
LID: G 071  
INSERT: G 033, G 057

## LID FOR THE TRAY 180x180

SERIES: G 071  
MATERIAL: PET

## INSERT FOR THE TRAY 180x180

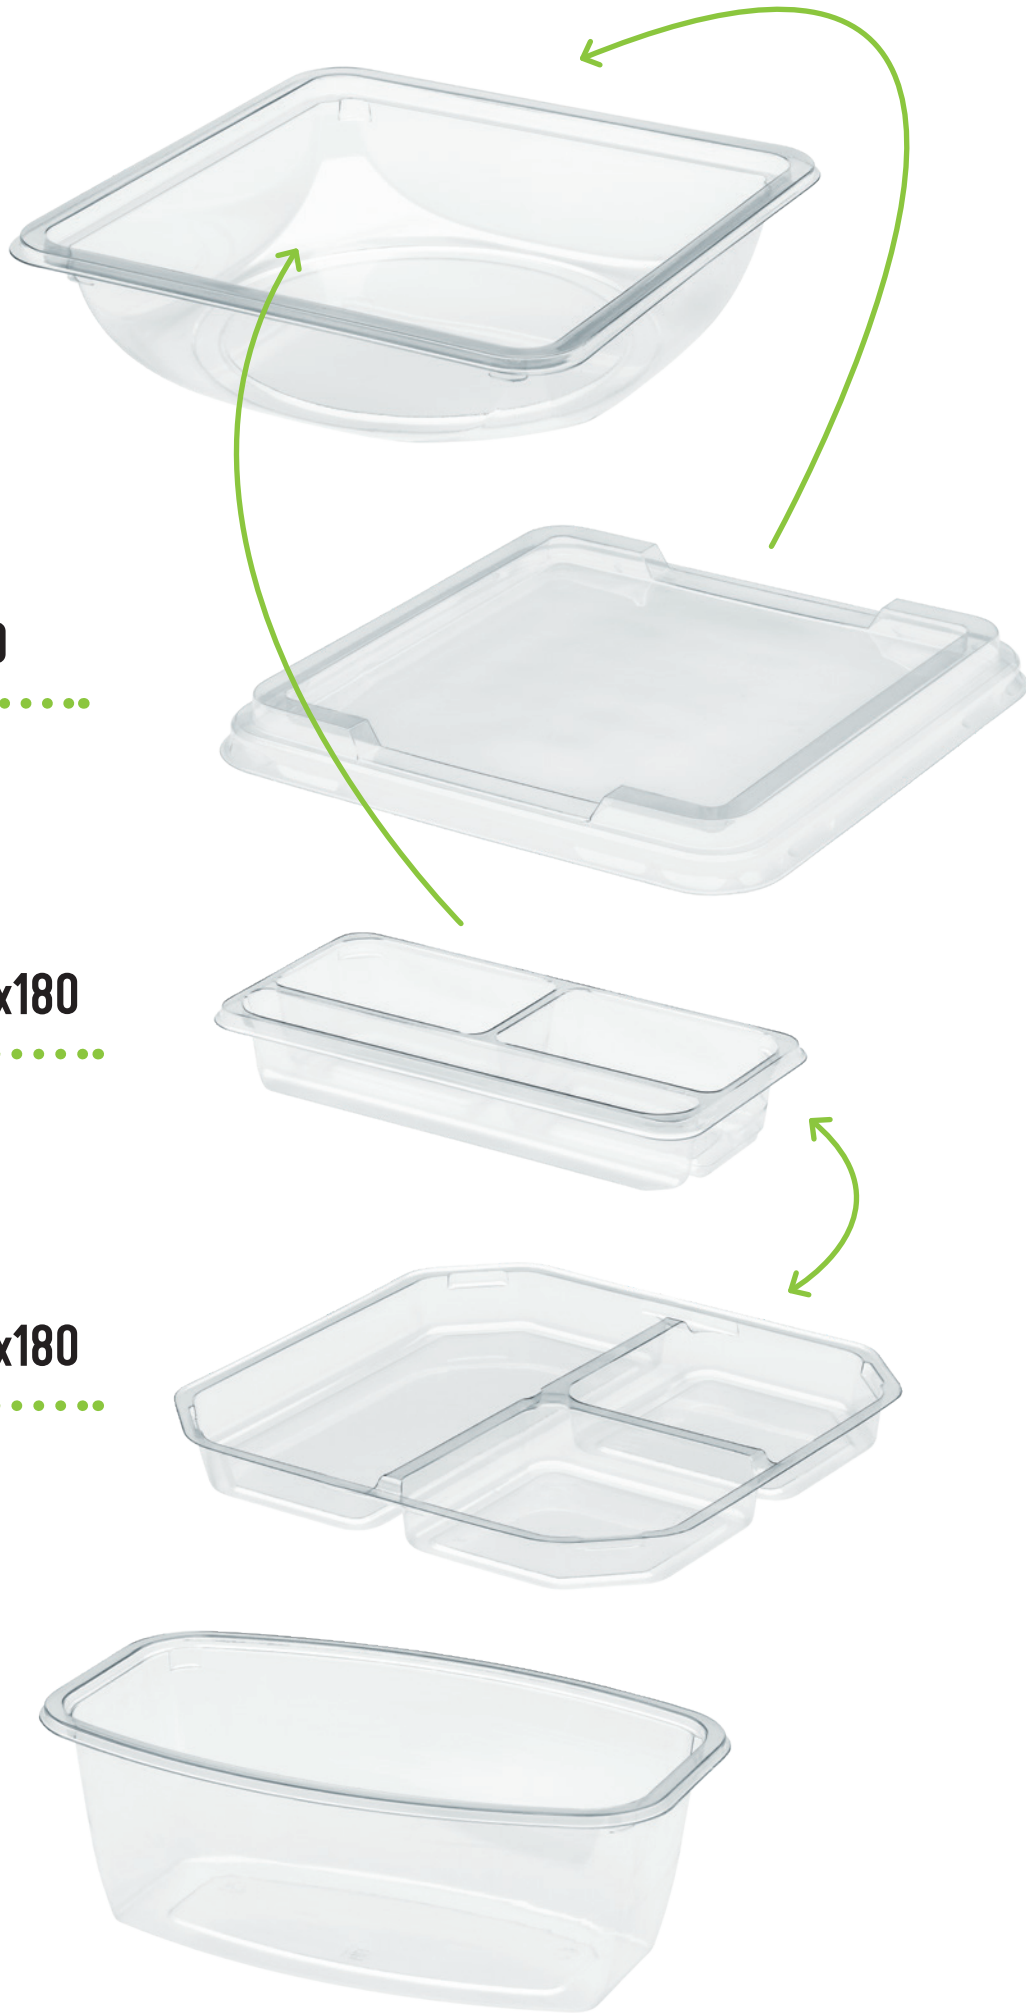

SERIES: G 033  
MATERIAL: PET

## INSERT FOR THE TRAY 180x180

SERIES: G 057  
MATERIAL: PET

## TRAY 200x122

SERIES: G 079  
HEIGHT: 70 mm.  
MATERIAL: PET

## TRAY 192x152

SERIES: G 045  
HEIGHT: 65, 79 mm.  
MATERIAL: PET

## TRAY 188x118

SERIES: G 061  
HEIGHT: 57, 104 mm.  
MATERIAL: PP, PET  
COMPLEMENTARY PRODUCT  
LID: G 062

## LID FOR THE TRAY 188x118

SERIES: G 062  
MATERIAL: PP, PET

## TRAY 245x144

SERIES: G 003, G 004  
HEIGHT: 40, 67, 78 mm.  
MATERIAL: PP

## TRAY 136x96

SERIES: G 063  
HEIGHT: 50, 68 mm.  
MATERIAL: PP

## TRAY 214x167

SERIES: G 081  
HEIGHT: 70, 80, 90 mm.  
MATERIAL: PET  
COMPLEMENTARY PRODUCT  
LID: G 083  
INSERT: G 082

## INSERT FOR THE TRAY 214x167

SERIES: G 082  
HEIGHT: 35 mm.  
MATERIAL: PET

## LID FOR THE TRAY 214x167
